HOMEOPATHIC MEDICINE
ALLERGY MIX

SECRET #1

Your Allergy Attacks are simply your body reacting to mold, dust and tree pollens that are floating in the air during allergy season.

SECRET #2

When your body breathes in these antigens from the air, that's what may be causing your body to over react...
Giving you Allergy Attacks!

SECRET #3

Allergies may come around in all 4 seasons. Primarily at their peaks from October in the beginning of the seasons change through the New Year... And, again heavily in the months of April through June. Each region of the country has different types and levels of pollens present. Unlike any other Allergy product at Allergy Mix we designed this product for you and your needs. ALLERGY RELIEF IS POSSIBLE!

Lucky for you, we've mastered the art and science of understanding Allergies on a LOCAL level, so we formulate our product that way.

That's Why Our Customers Love

Top reviews from the United States

★★★★★ **It works!**

Reviewed in the United States on February 7, 2020

Size: 1 Fl Oz (Pack of 1) | [Verified Purchase](#)

I had severe sinus/allergies and during 4 days were under medication with no signs of reliefs. A friend told me about this and I ordered immediately. The next day after the first 15 drops under my tongue I felt much better. By day two.. I did not have nose congestion 🤧 or headache 😫. I will for now on keep this product on my counter 365 days a year. Note: I was told to finish the bottle even if getting better, as allergies could return. Not a problem at all 🙌🙌 thank you LV Allergies Mix

★★★★★ **Great allergy relief, if you start taking early!**

Reviewed in the United States on April 26, 2015

Size: 1 Fl Oz (Pack of 1) | [Verified Purchase](#)

Love this! Used for many years. It does work, I do think that the trick is to "start" a few weeks before allergy season to get yourself built up to fight the air! That way, if it does hit you, it won't hit so hard! Also do not drink anything until about 20 minutes after you take it. It does need time to settle into the system. I have read the reviews, it isn't for everyone, but if you do your homework, read on how it works, and adjust to fit you, it will work great. For me, my allergy hits the worst Feb and March, pine trees, so mid January I need to start taking a little daily. Hint: If you can find a lovely health food store, and make friends with the people that are educated, ask them their opinions, you will learn so much. Then make your choice. There is always the Library as well for tons of information. Allergy will make you tired, to the point of not lifting your head off the pillow. This has helped me so very much and I am not without it in my home. This is just my personal opinion, you must find what works for you. Good luck!

It just works, there's no better recommendation I can give than that. Vegas allergies have bothered me since I moved on it here and otc and prescription allergy meds really didn't help so I tried this and it's a night and day difference.

Natural Ingredients

Allergy Mix is formulated each season with a fresh blend of exactly what will be in the air during allergy season. Based on the science of past years and what is expected.
